# JURISDICTION

(Pursuant to Rule XXV, Sec. 2, Standing Rules of the Senate)

The Senate Committee on Environment and Public Works is one of sixteen standing committees established by Rule XXV of the Senate, under which committee jurisdictions were last revised by the adoption of S. Res. 4, Senate Committee Reorganization, February 11, 1977.

Section 2 of Rule XXV as amended on January 5, 1981 provides that the Committee shall consist of sixteen Senators.

The pertinent section of Senate Rule XXV follows:

(h)(1) Committee on Environment and Public Works, to which shall be referred all proposed legislation, messages, petitions, memorials, and other matters relating to the following subjects:

1. Air pollution.
2. Construction and maintenance of highways.
3. Environmental aspects of outer continental shelf lands.
4. Environmental effects of toxic substances, other than pesticides.
5. Environmental policy.
6. Environmental research and development.
7. Fisheries and wildlife.
8. Flood control and improvement of rivers and harbors, including environmental aspects of deepwater ports.
9. Noise pollution.
10. Nonmilitary environmental regulation and control of nuclear energy.
11. Ocean dumping.
12. Public buildings and improved grounds for the United States generally, including Federal buildings in the District of Columbia.
13. Public works, bridges, and dams.
14. Regional economic development.
15. Solid waste disposal and recycling.
16. Water pollution.
17. Water resources.

(2) Such committee shall also study and review, on a comprehensive basis, matters relating to environmental protection and resource utilization and conservation, and report thereon from time to time.

# RULES OF PROCEDURE OF THE COMMITTEE

Rule 1. *Regular Meeting Days.*—The regular meeting day of the committee shall be the first and third Thursday of each month at 10:00 A.M., except that if there be no business before the committee, the regular meeting shall be omitted.

Rule 2. *Committee Meetings.*—Subject to section 133(a) of the Legislative Reorganization Act of 1946, as amended, committee meetings for the conduct of business, for the purpose of holding hearings, or for any other purpose, shall be called by the chairman, after consultation with the ranking minority member. Subcommittee meetings shall be called by the chairman of the respective subcommittee, after consultation with the ranking minority member. Notice of a meeting and the agenda of business to be discussed by the committee will be provided to all members not less than twenty-four hours in advance of such meeting. Additions to the agenda after that time may be made with the concurrence of the ranking minority member. Such 24-hour notice may be waived in an emergency by the chairman, with the concurrence of the ranking minority member.

Rule 3. *Open Committee Meetings and Legislative Mark-up Sessions.*—Meetings of the committee, including hearings and legislative mark-ups, shall be open to the public, except that a portion or portions of any such meeting may be closed to the public if the committee determines by record vote of a majority of the members of the committee present that the matters to be discussed or the testimony to be taken at such portion or portions—

(1) will disclose matters necessary to be kept secret in the interests of national defense or the confidential conduct of the foreign relations of the United States;

(2) will relate solely to matters of committee staff personnel or internal staff management or procedure; or

(3) constitute any other grounds for closure under paragraph 7(b) of rule XXV of the Standing Rules of the Senate (as amended by Senate Resolution 9, 94th Congress).

Rule 4. *Presiding Officer.*—(a) The chairman shall preside at all meetings and hearings of the committee except that in his absence the ranking majority member who is present at the meeting shall preside.

(b) Subcommittee chairmen shall preside at all meetings and hearings of their respective subcommittees, except that in the absence of the subcommittee chairman, the ranking majority member of the subcommittee who is present at the meeting shall preside.

(c) Notwithstanding the rule prescribed by subsections (a) and (b), any member of the committee may preside over the conduct of a hearing.

Rule 5. *Quorums.*—(a) Except as provided in subsections (b) and (d), five members, two of whom shall be members of the minority party, shall constitute a quorum for the conduct of business, except for the purpose of reporting any measure or matter.

(b) Quorums for the conduct of business by the subcommittees shall be a simple majority of the membership of the subcommittees with at least one minority member present.

(c) Once a quorum as prescribed in subsections (a) and (b) has been established for the conduct of business, the committee may continue to conduct business.

(d) Notwithstanding the rule prescribed in subsection (a), one member shall constitute a quorum for the purpose of conducting a hearing.

Rule 6. *Proxy Voting.*—(a) Proxy voting shall be allowed on all measures, amendments, resolutions, or any other issue before the committee or any subcommittees. Any member who is unable to attend the meeting may submit his vote on any such issue, in writing or through personal instructions; however, proxies shall not be voted for the purpose of reporting any measure or matter except when the absent committee member has been informed of the matter on which he is being recorded and has affirmatively requested that he be so recorded. A proxy given in writing shall be valid until revoked, while a proxy given orally or by personal instructions is valid only on the day given.

(b) At the discretion of the chairman, after consultation with the ranking minority member, members who are unable to be present and whose vote has not been cast by proxy may have their positions recorded on any vote on the same business day so long as the vote will not change the outcome.

Rule 7. *Public Announcement of Vote.*—Whenever the committee, by rollcall vote, reports any measure or matter, or acts upon any measure or amendments thereto, the report of the committee on such measure or matter shall include a tabulation of the votes cast in favor of and the votes cast in opposition to such measure or matter by each member of the committee.

Rule 8. *Announcement of Hearing.*—The committee, or any subcommittee thereof, shall make public announcement and provide notice to members of the date, place, time, and subject matter of any hearings to be conducted on any measure or matter, at least one week in advance of such hearing, unless the committee chairman, or subcommittee

chairman, with the concurrence of the ranking minority member, determines that there is good cause to begin such hearing at an earlier date, in which event not less than twenty-four hours notice shall be given.

Rule 9. *Statements of Witnesses at Hearings.*—(a) Each witness who is scheduled to testify at any hearing of the committee, or any subcommittee thereof, shall file a written statement of his proposed testimony not later than noon of the last business day preceeding the day on which he is scheduled to appear. At the time of his appearance, he shall supply for the use of the committee or subcommittee, 25 copies of his prepared testimony or such greater number as may be requested in the letter of invitation. Except for witnesses from the Federal Government, this rule may be waived with regard to field hearings.

(b) The presiding officer at a hearing may have a witness confine his oral presentation to a summary of his statement.

Rule 10. *Regularly Established Subcommittees.*—The committee shall have six regularly established Subcommittees as follows:

Subcommittee on Environmental Pollution
Subcommittee on Nuclear Regulation
Subcommittee on Water Resources
Subcommittee on Transportation
Subcommittee on Toxic Substances and Environmental Oversight
Subcommittee on Regional and Community Development

Rule 11. *Subcommittee Membership.*—Following consultation with the Majority Members and the Ranking Minority Member of the Committee, the chairman shall announce selections for membership of the subcommittees referred to in Rule 10.

Rule 12. *Environmental Impact Statements.*—No project or legislation proposed by the Administration shall be approved or other action taken on such project or legislation unless the committee has received a final environmental impact statement relative to it, in accordance with section 102(2)(C) of the National Environmental Policy Act of 1970, and the written comments of the Administrator of the Environmental Protection Agency, in accordance with section 309 of the Clean Air Act. This rule is not intended to broaden, narrow, or otherwise modify the class of projects or legislative proposals for which environmental impact statements are required under section 102(2)(C).

Rule 13. Whenever the committee authorizes a project, under Public Law 89-298, Rivers and Harbors Act of 1965, Public Law 83-566, Watershed Protection and Flood Prevention Act, or Public Law 86-249, Public Buildings Act of 1959, as amended, the chairman shall submit for printing in the Congressional Record, and the Committee shall publish periodically as a committee print, a report that describes the project and the reasons for its approval, together with any dissenting or individual views.

Rule 14. *Naming of Public Facilities.*—No building, structure or facility authorized by the committee, shall be named for any living person, except former Presidents or former Vice Presidents of the United States, or former Members of Congress over 70 years of age.

Rule 15. (a) The committee shall act on all prospectuses for construction (including construction of buildings for lease by the government), alteration and repair, or acquisition submitted by the General Services Administration in accordance with section 7(a) of the Public Buildings Act of 1959, as amended, and such action shall be completed by the date of May 15 during the same session in which such prospectuses are submitted to Congress. The committee may consider prospectuses submitted for alterations or repairs necessitated by emergency building conditions at any time during the same session of the Congress in which they are submitted. Prospectuses rejected by majority vote of the committee or not contained in any bill reported to the Senate shall be returned to the GSA and must then be resubmitted in order to be considered for action by the committee during the next session of the Congress.

(b) Reports of building project surveys submitted by the General Services Administration to the committee under section 11(b) of the Public Buildings Act of 1959, as amended, shall not be considered by the committee as being prospectuses subject to approval by committee resolution in accordance with section 7(a) of that Act. Projects described in such survey reports shall be considered for committee action only if they are submitted as prospectuses in accordance with section 7(a) and they shall be subject to the provisions of subsection (a) of this rule.

(c) Proponents of committee resolutions shall submit appropriate evidence showing need for review or reports on river and harbor and flood control projects.

Rule 16. *Broadcasting of Hearings.*—Public hearings of the committee, or any subcommittee thereof, may be televised or broadcast, or recorded for television or broadcast, upon notification in advance to the chairman through the chief clerk. During public hearings, photographers and other reporters using mechanical recording or filming devices shall position and use their equipment in such fashion as will not interfere with the seating, vision, or hearing of Committee Members or staff on the dais, nor with the orderly process of the hearing.

Rule 17. *Amendment of Rules.*—The rules may be added to, modified, amended, or suspended by a majority of the Committee Membership.

# HISTORY AND WORK OF THE COMMITTEE

The Committee on Environment and Public Works is one of 16 standing committtees of the United States Senate. The work of the Committee brings together elements of national policy providing developmental opportunities and those providing for environmental protection. Over the last two decades, it has encompassed major environmental initiatives as well as basic infrastructure development.

Although the Senate created the Public Buildings and Grounds Committee in 1837, the present Committee structure of the Congress was established in 1946. Federal-aid highway systems, flood control and navigation projects, and construction of Federal buildings were the original areas of jurisdiction of the Senate Committee on Public Works. Beginning in 1963, water and air pollution control, rural and community economic development, and relief of natural disasters became important areas of the committee's activity.

The landmark Clean Air Act of 1970, and the Federal Water Pollution Control Act of 1972, brought the committee recognition as the jurisdictional home of environmental pollution control. In 1977 the Senate transferred fish and wildlife refuges and programs, and the regulation of nonmilitary nuclear power to the committee, now designated "Environment and Public Works."

The committee's environmental responsibility also includes the Resource Conservation and Recovery Act (RCRA) governing disposal of solid waste, Superfund (CERCLA), the Toxic Substances Control Act (TSCA), the Safe Drinking Water Act, ocean dumping, and the National Environmental Policy Act (NEPA).

Committee oversight extends to programs in five cabinet-level departments and seven independent agencies, including the Environmental Protection Agency, the Council on Environment Quality, the Federal Highway Administration (DOT), the Economic Development Administration (DOC), the Tennessee Valley Authority, the Appalachian Regional Commission, the Fish and Wildlife Service (DOI), the Nuclear Regulatory Commission, the Public Buildings Service (GSA), the Federal Emergency Management Agency, the Soil Conservation Service (USDA), and the non-performing arts functions of the Kennedy Center.

Recent public interest in the committee's activities has focused on the prevention of acid rain, the protection of endangered species and barrier islands, and the repair of bridges and maintenance of Federal-aid highways, including completion of the Interstate System.

Adopted:
(1) STAFFORD-BENTSEN Amendment No. 630, of a technical and clarifying nature.

**S. 51—Continued**

(2) STAFFORD (for KASTEN) Amendment No. 631, to clarify the liability of the United States for release from facilities in which munitions-producing equipment is owned by the Department of Defense.

(3) STAFFORD-BENTSEN Amendment No. 632, to exempt units of State and local governments in cases where title of control has shifted to them by virtue of abandonment, bankruptcy, tax delinquency, foreclosure or similar means.

(4) BRADLEY-LAUTENBERG Amendment No. 634, to prohibit the use of lead pipes, lead solder, and lead flux in drinking water systems.

September 18, 1985. Senate continued consideration of S. 51, taking action on additional amendments proposed thereto, as follows:

Adopted:

(1) STAFFORD-BENTSEN Amendment No. 633, to provide an alternative way through which companies may obtain pollution liability insurance.

(2) STAFFORD (for KASTEN) Amendment No. 635 (to Amendment No. 633), of a perfecting nature, to clarify that activities of pollution liability risk retention groups are limited to coverage of pollution liability risks.

(3) WEICKER Amendment No. 636, to require a study of and report on the sources and extent of lead poisoning in children from environmental sources.

(4) LAUTENBERG Amendment No. 638, to improve community emergency preparedness and response, requiring the publication of a list of extremely hazardous substances, taking into account the toxicity, reactivity, volatility, flammability, and usage of such substances.

(5) BAUCUS Amendment No. 639, to assure that no delay occurs in cleaning up sites presently listed on the National Priorities List, that the MITRE model will be revised to accurately reflect comparative risk on a site-specific basis; that in the interim special study waste sites (or abandoned mine drainage areas) could be listed on the NPL if they present a genuine and substantial risk, but certain safeguards would be put into place to assure that proper site by-site assessment of risk is undertaken before this is done, and that higher priority sites are listed first; and the EPA's emergency authorities under sections 104 and 106(a) of CERCLA would remain available to deal with these sites, when appropriate.

(6) LAUTENBERG (for MITCHELL) Amendment No. 640, to establish in the Environmental Protection Agency a program of research on hazardous contaminants in the indoor air and exposure to radon gas.

September 19, 1985. Senate continued consideration of S. 51, taking action on additional amendments proposed thereto as follows:

Adopted:

(1) BRADLEY-LAUTENBERG Amendment No. 647, expressing the sense of the Congress that the President, on selecting response action for facilities included on the National Priorities List published under section 105 of the Act because of the presence of radon, is not required by statute or regulations to use fully demonstrated methods, particlarly those involving the offsite transport and disposition of contaminated material, but may use innovative or alternative methods which protect human health and the environment in a more cost-effective manner.

(2) STAFFORD-BENTSEN Amendment No. 648, providing that not later than July 1, 1986, the President shall publish a list of toxic chemical substances which, on the basis of available information and in the judgment of the President, are manufactured in or imported into the United States in aggregate quantities that exceed 500,000 pounds per year and may cause adverse environmental effects.

(3) STAFFORD-BENTSEN Amendment No. 649, providing language for dealing with a facility at which equipment for the recovery of processing (including recirculation of condensate) of methane has been installed.

(4) DURENBERGER Amendment No. 650, providing that not later than October 9, 1985, the Director of the Office of Management and Budget shall complete his review and make available for publication in the Federal Register all of the proposed recommended maximum contaminant levels for those organic and inorganic chemicals published by the Administrator of EPA in volume 49, Federal Register, page 45502, and submitted by the Administrator to the Director prior to April 30, 1985.

September 20, 1985. Senate continued consideration of S. 51, taking action on additional amendments proposed thereto, as follows:

Adopted:

(1) STAFFORD-BENTSEN Amendment No. 651, of a technical and clarifying nature.

(2) LAUTENBERG Amendment No. 652, requiring that annual reports be submitted to Congress on the status of cleanup efforts at all identified Federal facilities.

(3) KENNEDY Amendment No. 653, providing $15,000,000 for a comprehensive national program of lead abatement.

(4) KENNEDY Amendment No. 654, to allow and encourage the Environmental Protection Agency to be more flexible in choosing alternative cleanup procedures when additional contamination is discovered at Superfund sites.

(5) KENNEDY modified Amendment No. 655, to increase funding for the Agency for Toxic Substances and Disease Registry.

(6) STAFFORD (for HATCH) Amendment No. 656, authorizing the awarding of grants, contracts, and cooperative agreements by the Secretary of Health and Human Services and the Administrator of the Environmental Protection Agency for health research and training related to hazardous waste cleanup.

**S. 51—Continued**

(7) STAFFORD-BENTSEN Amendment No. 657, providing that if the Administrator of EPA, in consultation with the head of the relevant department, agency, or instrumentality, determines that a remedial investigation and feasibility study or remedial action will be done properly at the Federal facility by another potentially responsible party within the deadlines provided, the Administrator may enter into an agreement with such party providing for assumption of the responsibilities set forth; that the head of each department, agency, or instrumentality or his designee may consider, compromise, and settle any claim of demand under the Act arising out of activities of his agency, in accordance with the regulations prescribed by the Attorney General; and that the President may exempt any site or facility of any department, agency, or instrumentality in the executive branch from compliance with any such guidelines, rules, regulations of criteria if the President determines it to be in the paramount interest of the United States to do so.

(8) METZENBAUM Amendment No. 658, providing that grants to communities may be used to obtain technical assistance in interpreting information with regard to the nature of the hazard, remedial investigation and feasibility study, record of decision, remedial design, selection and construction of remedial action, operation and maintenance, or removal action.

(9) PACKWOOD-LONG Amendment No. 659, of a technical and clarifying nature.

(10) HEINZ Amendment No. 660, providing for the development and construction of regional research centers at appropriately qualified universities, research and medical institutions for the study of the biological and genetic effects of wastes and materials found in the environment.

(11) BYRD Amendment No. 661, directing the Administrator of EPA, not later than 30 days after enactment of the Act, to initiate a comprehensive review of emergency systems for monitoring, detecting, and preventing releases of extremely hazardous substances at representative domestic facilities that produce, use, or store extremely hazardous substances.

(12) STAFFORD-THURMOND Amendment No. 663, making technical corrections and amending the contribution and review provisions.

(13) STAFFORD (for SPECTER) Amendment No. 664 (to Amendment No. 663), of a perfecting nature, providing that, in resolving contribution claims, response costs shall be allocated among liable parties using such equitable factors as the court determines are appropriate.

(14) BENTSEN-STAFFORD Amendment No. 665, providing that the President shall, in contracting or arranging for response action to be undertaken pursuant to contracts or cooperative agreements funded in accordance with the Act, agree to hold harmless and indemnify a contracting or subcontracting party against claims, including the expenses of litigation or settlement by third persons for death, bodily injury, loss of or damage to property arising out of performance of a cleanup agreement to the extent not covered by available insurance and to the extent that any such damages awarded do not arise out of the negligence, recklessness, or intentional misconduct of the contracting or subcontracting party.

(15) BENTSEN Amendment No. 666, providing that any litigation relating to permits of the Administator issued pursuant to the Clean Air Act, the Clean Water Act, the Solid Waste Disposal Act, the Toxic Substances Control Act, and this Act, and for which such permitted facilities would guarantee the availability of treatment, incineration, or disposal capacity of at least 25 percent for Superfund waste shall be afforded priority consideration over other civil litigation by the respective United States Court of Appeals by the jurisdiction over the litigation.

(16) McCONNELL-FORD Amendment No. 667, providing that certain expenses of a private foundation in removing hazardous substances shall be treated as qualifying distributions for purposes of section 4942 of the Internal Revenue Code of 1954.

(17) MOYNIHAN-LAUTENBERG Amendment No. 669, authorizing and directing the President to carry out a program of research, evaluation, testing development, and demonstration of alternative or innovative treatment technologies that may be utilzed in response action under section 104 or section 106 of the Act to achieve more permanent protection of the public health and welfare and the environment.

September 23, 1985. Senate continued consideration of S. 51, taking action on additional amendments proposed thereto, as follows:

Adopted:

(1) STAFFORD-BENTSEN Amendment No. 670, of a technical nature.

(2) BENTSEN Amendment No. 671, requiring additional evidence of financial responsibility for incineration vessels in such amounts, and to cover such liabilities recognized by law, as the President deems appropriate, taking into account the potential risks posed by incineration and transport for incineration, and any other factors deemed relevant.

(3) MITCHELL Amendment No. 673, limiting benefits under the Victim Assistance Demonstration Program to persons who have been exposed to a release of the relevant hazardous substance.

September 24, 1985. Senate continued consideration of S. 51, taking action on additional amendments proposed thereto, as follows:

Adopted:

(1) By 49 yeas to 45 nays (Vote No. 193), ROTH Amendment No. 674, to strike the Victims Assistance Demonstration Program from the bill (section 129).

(2) METZENBAUM Amendment No. 677, providing that standards for health and safety protection of employees engaged in hazardous waste operations, including emergency response, shall be promulgated by the Secretary of Labor, under the Occupational Safety and Health Act, not later than one year after enactment of the Superfund Improvement Act of 1985.

(3) STAFFORD (for HEINZ) Amendment No. 678, to increase the amount which must be accumulated in the Superfund before the taxes are terminated.

**S. 51—Continued**

(4) STAFFORD (for HEINZ) Amendment No. 679, to provide for a post-closure liability program study, a report to Congress, suspension of the liability transfer, and a refund of the unobligated balance in the Post-Closure Liability Trust Fund if further congressional action has not been taken within one year.

(5) DOMENICI Amendment No. 680, providing that the President shall consider, but may accept or reject, good-faith offers of settement from any person potentially liable, and in the discretion of the President is authorized to accept such offers if the offer does not constitute a substantial portion of the costs of response, if (1) the amount of the hazardous substances contributed to the release by the party making the offer, and (2) the toxic or other hazardous effects of the substances contributed to the release by the party making the offer are minimal in comparison with contributions to the release by other potentially responsible parties.

(6) STEVENS Amendment No. 681, providing that, with respect to a Federal facility or activity for which such duties of powers are delegated to an officer, employee or representative of the department, agency or instrumentality which owns or operates such facility or conducts such activity, unless the Administrator has entered into a memorandum of understanding with the head of such department, agency or instrumentality, the concurrence of the Administrator (and the responsible State official where a cooperative agreement has been entered into) shall be required for the selection of appropriate remedial action and the administrative order authorities of section 106 (a) are hereby delegated to the Administrator.

(7) WILSON Amendment No. 682, providing that not later than six months after the inclusion of any facility on the National Priorities List (NPL), or within six months of the enactment of the Act, whichever is later, the department, agency, or instrumentality which owns or operates such facility shall enter into an agreement with the Administrator and appropriate State authorities under which such department, agency, or instrumentality will carry out a remedial investigation and feasibility study for such facility, providing for a timetable and deadlines for commencement and expeditious completion of such investigation and study.

(8) WILSON Amendment No. 684, providing that the Secretary of Defense shall carry out a program of environmental restoration at facilities under the jurisdiction of the Secretary, to be known as the Defense Environmental Restoration Program.

(9) SPECTER Amendment No. 685, requiring the Administrator of EPA and the Attorney General to submit to Congress annually on the first day of January a report, including the rules, guidelines, criteria and procedures used to determine which potentially responsible parties to include as defendants in a judicial or administrative enforcement action; to develop facts and information regarding potentially responsible parties at priority sites and to provide such information to potentially responsible parties in order to assist the settlement process; and to determine whether, to what extent, and on what basis to use Fund resources for removal or remedial actions in connection with a settlement or voluntary cleanup.

(10) HELMS Amendment No. 686, expressing the sense of the Senate that the committee of conference on the Superfund reauthorization legislation should report legislation containing a reliable financing mechanism for the Superfund program which does not include the value added tax.

September 24, 1985. Senate incorporated this measure in H.R. 2005 as an amendment and indefinitely postponed it.

September 26, 1985. Senate passed H.R. 2005, after having stricken all after the enacting clause and inserting in lieu hereof the text of this bill, S. 51, as amended.

Adopted:

(1) LAUTENBERG-HEINZ Amendment No. 2611, providing for major disaster relief and emergency assistance, to save lives and to protect property, public health and safety, and to lessen or avert the threat of a catastrophe in any part of the United States.

(2) SYMMS Amendment No. 2871, to provide for a maximum speed limit of 65 miles per hour.

(3) HECHT Amendment No. 2872, to authorize funds to carry out the Urban Mass Transportation Act of 1984, as amended.

(4) TRIBLE Amendment No. 2873, to provide for the upgrading from 2 to 4 lanes a highway providing access from Route 25E through that portion of the Cumberland Gap National Historical Park which lies within the State of Virginia.

(5) SYMMS (for PACKWOOD) Amendment No. 2874, to provide for a 4-year extension of the Highway Trust Fund taxes and related exemptions.

(6) STAFFORD (for PRESSLER) Amendment No. 2875, to require a feasibility study of establishing ferry boat service in the vicinity of Springfield, South Dakota.

**S. 2405—Continued**

(7) STAFFORD (for HATFIELD) Amendment No. 2876, to allow a substitute transit project for construction of a light rail transit system in lieu of construction of any eligible interstate lanes in Oregon.

(8) SYMMS (for STAFFORD) Amendment No. 2877, to authorize funds for certain highways, in accordance with title 23, United States Code.

(9) STAFFORD (for DURENBERGER) Amendment No. 2878, to amend the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970.

(10) STAFFORD (for ROTH) Amendment No. 2879, to request the U.S. Army Corps of Engineers to review certain reports regarding the United States Route 13 relief route.

(11) SYMMS Amendment No. 2880, to allow the value of certain donations to be credited toward the State matching share for the Calder Bridge project, across the St. Joe River, 19 miles east of St. Maries, Idaho.

(12) BUMPERS Amendment No. 2881, to amend section 144 of title 23, United States Code, to give States the authority to use a portion of their bridge replacement funds to replace ferryboat operations, bridges destoyed prior to 1960, or low-water crossings.

(13) SYMMS Amendment No. 2882, to provide that when a State has obligated all the highway substitute, urban, secondary or bridge funds apportioned or allocated to it or has used or demonstrates that it will use the obligation authority allocated to it, and proceeds to construct a highway substitute, urban, secondary or bridge project without the aid of Federal funds in accordance with all procedures and all requirements applicable to a project, the Secretary, upon approval of an application, is authorized to pay to the State the Federal share of the cost of construction or allocated to the State, or when additional obligation authority is allocated to the State, subject to certain conditions.

(14) CHILES Amendement No. 2883, to provide that the Secretary may permit Federal participation, on the same basis and in the same manner as in the construction of free highways, in the construction of any new toll highway, bridge or tunnel, other than a highway on the Interstate System; in the reconstruction of any existing highway, bridge or tunnel on the Interstate System; or in the consturction, reconstruction or acquisition of any toll bridge or toll tunnel, upon compliance with certain conditions, provided that the Federal share payable for the construction or reconstruction of a toll highway, bridge or tunnel shall not exceed 35 percent.

(15) BYRD Amendment No. 2884, to raise the emergency relief cap.

(16) SYMMS Amendment No. 2885, to establish a $250,000 minimun for application of Davis-Bacon wage rates to contracts for Federal-Aid Highway construction.

(17) INOUYE-MATSUNAGA Amendment No. 2886, to provide an exemption from section 4(f) of the Federal-Aid Highway Act for the H-3 Highway in Hawaii.

(18) JOHNSTON-LONG Amendment No. 2887, to authorize a study of the feasibility and necessity of constructing a highway along a route from Shreveport, Louisiana to Kansas City, Missouri.

(19) HARKIN Amendment No. 2888, to express the sense of the Congress that the States and local governments should consider the full cost of using rock salt on the highways, including the damage to highways, vehicles, equipment, buildings, and the environment, in calculating the real cost of deicing materials and the use of calcium magnesium acetate as an alternative deicing material.

(20) SYMMS Amendement No. 2889 (to CHILES Amendment No. 2883), of a perfecting nature.

Rejected:

(1) HECHT Amendment No. 2870 (to Amendment 2871), of a perfecting nature, to limit the 55 mile per hour speed limit to urbanized areas.

September 24, 1986. Senate took action on amendments as follows:

Adopted:

(1) GORTON Amendment No. 2893, providing that none of the funds appropriated or made available by the act shall be used to implement Internal Revenue Service Regulation section 41.4481-1(a)(2) or any ruling or procedure which attains the same or similar result.

(2) SYMMS Amendment No. 2895, to strike the limitations concerning South Africa on awards of contracts.

Rejected:

(1) Cochran-Thurmond Amendment No. 2890, to apply the buy American provision to cement and cement clinker. (By 56 yeas to 41 nays (Vote No. 285), Senate tabled the amendment.)

(2) Specter Amendment No. 2891, to increase the obligation limitations for Federal-Aid highways and highway safety construction programs. (Amendment fell on a point of order, that the amendment violates section 302(f) of the Congressional Budget Act by providing for outlays in excess of the appropriate allocation.)

(3) Specter Amendment No. 2894, to increase the obligation limitations for Federal-Aid highways and highway safety construction programs. (By 69 yeas to 28 nays (Vote No. 286), Senate tabled the amendment.)

## FULL COMMITTEE BUSINESS MEETINGS

**January 4, 1985**

Organization meeting for the Committee agenda.

**January 29, 1985**

The Committee approved, as amended, two highway measures and ordered them reported to the Senate.

The Committee approved a Senate joint resolution in lieu of S.J. Res. 8, the so-called "clean ICE", first adopting by a vote of 15 to 0 the CHAFEE amendment reducing highway obligational authority by $500 million below a "freeze" (after rejecting by vote of 11 to 3 the LAUTENBERG substitute amendment limiting obligations to a "freeze").

The Committee also reported a clean bill in lieu of S. 178, approving the interstate cost estimates and containing other provisions similar to S. 2527 and S. 3024, passed by the Senate last year. After adopting (1) the CHAFEE amendment limiting obligations to $500 million below a "freeze" and (2) the ABDNOR amendment deleting section 127 containing fourteen demonstration projects.

Fourteen Members were present for votes during the markup. The "freeze" discussed by the Committee represents a limitation on highway obligations of $12.750 billion, $1.7 billion below the obligation limitation in S. 178 as introduced.

The Committee also adopted it's rules of procedure for the 99th Congress and it's budget for fiscal 1986.
